

CABLE TRAY

#EZYSTRUT #CT #ET #ET3 #ET5 #ACCESSORIES

EzyStrut offers some of the strongest cable trays in their classes, and produces them to a very high structural and visual standard. Cable trays offer continuous support of cables, are lightweight, quick and straight forward to install just about anywhere, and generally mean that changing cabling services over the lifetime of a project is an easy process. They are suited to both inside and outside installation, normally being offered in either pre-galvanised steel, or hot dip galvanised.
